

# Understanding your Balance Sheet

## The Formula

X (5 year **IMPORT** semester subtotal) – Z (5 year **EXPORT** semester subtotal) = Z (may be + or – number)

Z/X = A% (may be + or – percentage)

Balance sheets are calculated on the current year and the past four years.

Your institutional standing per the formula.

$$12 - 6 = 6$$

$$6 / 12 = 50\%$$

Note: DC 3 credit is accounted for on the 2014-15 Balance Sheet.
