## Conducting a School Search

### School-by-School Specifics

Each year we ask participating institutions to complete an Institutional Profile for the upcoming academic year. Most of our 600+ members, about 80% of them, submit this information. If a school does not appear here and is listed as a participating institution they are members, but haven't completed their school profile.

You can select any set of variables by clicking on the appropriate item. Especially useful is information about deadlines, the competitive nature of awards, programs open to TE scholars and the school specific OVERVIEW text box.
